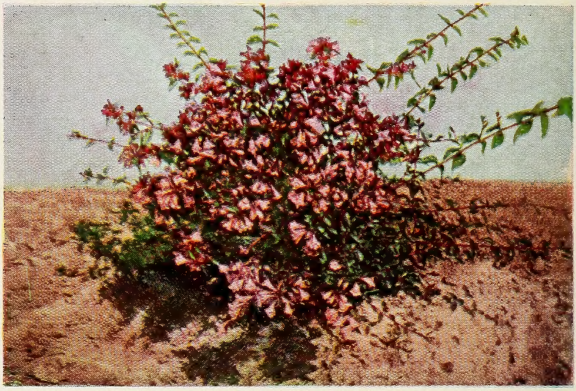
TINGLE NURSERY CO.

PITTSVILLE, MARYLAND

Member American, Delmarva and
Maryland Associations of Nurserymen

BLUEBERRIES. Both Ornamental and Delicious.



ABELIA, EDWARD GOUCHER. A Very Attractive Shrub.

DAPHNE GENKWA. One of the Rare Plants.

RED LEAF PEACH

Produces Full Crop of Edible Peaches!

Many ornamental trees have been offered with colored foliage, but never an ornamental PEACH TREE with RED FOLIAGE; bright red in spring, dulling to deep maroon towards fall. Deep rose blossoms against red foliage create a most pleasing contrast.

Trees produce a full crop of perfectly round Peaches, 1½-inch diameter—just the size for pickling. Fruit has all-over red coloring; flesh is white with a delicious sweet flavor.

3 to 4 ft., 10 for $6.00, 100 for $50.00
4 to 5 ft., 10 for $7.50, 100 for $60.00

COLORED PLATE BOOK

This is a very handy plate book to show your customers colored illustrations of over 250 nursery items with brief descriptions. Price, $2.00 each.

PAPER PLANT LABELS

We have again secured some tough water-resistant tag paper like we used to use in making plant labels. We believe these are as good quality as you can get anywhere and know they are better than some are using. We will be glad to send you samples if you will ask for them.

TYPEWRITER PLANT LABELS

These are in sheets of 12 labels ½ inch wide and 7 inches long. You can write or typewrite the labels in sheets. Easily torn apart when ready to use. 1000 for $2.50, 5000 for $7.75, 10,000 for $14.50. Special prices quoted on large lots.

ONE-SLOT PLANT LABELS

These are single labels ½ inch wide and 7 inches long with one slot in end to slip other end through making loop around plant. 1000 for $2.00, 5000 for $7.50, 10,000 for $14.00.

TWO-SLOT PLANT LABELS

These are in sheets of 10 labels ½ inch wide being wide at one end with 2 slots and other end pointed so it will easily go in the two slots. Easily torn apart when ready to use. 1000 for $2.50, 5000 for $9.75, 10,000 for $18.50.

Any of above labels can be printed to order with your firm name or variety of plants on them. Write for prices, stating just what you want printed on them and how many of each variety.

Business Information

NOT OPEN ON SUNDAYS. We do not have help to dig stock on Saturdays but if you want to pick up stock on Saturday let us know long enough in advance so we can have it ready for you.

THESE PRICES are in effect Spring 1954.

PRICES named in this Trade List apply only to orders placed by nurserymen, florists and dealers. Maryland customers are subject to 2% sales tax or send your License Number. All delivery costs are to be paid by purchaser.

PACKING. All goods are packed in boxes and bales for which we charge sufficient to cover cost of material used. We will add this cost to your invoice. **This cost applies whether you remit with order or buy on time terms.**

CLAIMS, if any, must be made immediately upon receipt of goods, and if just, made satisfactory, but in no case are we responsible for more than the purchase price of the stock in question. **We will not be responsible for failure to fill orders in full or for any damage or delay to stock after delivery to the transportation company.**

TERMS. We offer the usual terms: net 30 days from date of shipment to those of known responsibility **but must have satisfactory business references from others or remittance must accompany order.** Those desiring stock shipped C.O.D. will please remit **one-fourth** the amount of their purchase when ordering. Other terms by special arrangement.

NON-WARRANTY. We give no warranty, expressed or implied, the purchaser assuming all risk and responsibility of transportation, growth, planting, life of stock or any other matter on any stock we sell. We send out good stock, carefully grown and packed but cannot control conditions after it leaves our care. We exercise the greatest care to keep our stock true to name and are willing to replace on proper proof any stock that may prove otherwise, or refund the amount paid us for such stock, but it is mutually agreed that we shall not at any time be liable for any greater amount.

TELL US HOW TO SHIP, whether by express, motor truck, or railroad freight. If by motor truck or railroad freight, tell us the route or over which line you want delivery made. If you do not give this information we will use our own judgment as to route and methods to use. **It is mutually agreed that whether you name the route or leave it to our own selection, we will not in any way be responsible for time or condition of delivery and our responsibility ceases upon our delivery to the transportation company.**

HARDINESS OF PLANTS. When hardiness of plants is mentioned herein it applies to this section.

TIME OF SHIPMENT. We ship most every week in the year with the possible exception of during the winter when bad weather makes it impossible, although this is very seldom. Of course, there is a regular season for shipping the different plants, but if you want them out of season and are willing to take the risk of good delivery, we will pack with the utmost care and get them off to you at most any time you want them.

Plan to Visit Our Nursery

We will certainly be glad to have you come to see our stock for yourself. We believe you will find it compares favorably with that grown by other nurseries. Some of our customers have told us it is better than is furnished by some others. We are on the Eastern Shore of Maryland, 100 miles south of Wilmington, Delaware, 100 miles from Kiptopeke-Norfolk, Va., ferry, 90 miles from Annapolis, Md., via Chesapeake Bay Bridge, 150 miles from Baltimore, Md., via Elkton, Md., 225 miles from New York, N. Y. We hope you can come to see our stock. It is good driving on the famous Eastern Shore.

Ornamental Stock

1 to 5 at each rate, 5 or more at the 10 rate, 50 or more at the 100 rate, 500 or more at the thousand rate.

Items marked by an asterisk (*) are classed as Lining-Out stock.

Grafting Is Easy

You have often wanted to propagate some plants of a scarce or high priced variety but did not have the proper facilities to do it with. With a new outfit we are offering, you can do it yourself, as easily as making an old-fashioned graft. You take a branch of the shrub or tree you wish to graft, (leaving it on the parent plant) girdle the branch or twig, put damp peat moss or damp sphagnum moss around the girdled part and wrap it tightly with this new waterproof plastic (in sheets) and tie it, top and bottom, with rubber bands. Generally within six to eight weeks the twig is rooted ready to pot. It requires no watering or other attention until ready to pot. Complete outfit (enough plastic sheets and rubberbands to make 100 grafts) with complete instructions how to do the grafting, for $5.00 postpaid.

RED LEAF PEACH

Produces Full Crop of Edible Peaches!

Many ornamental trees have been offered with colored follage, but never an ornamental PEACH TREE with RED FOLIAGE; bright red in spring, dulling to deep maroon towards fall. Deep rose blossoms against red foliage create a most pleasing contrast.

Trees produce a full crop of perfectly round Peaches, 1½-inch diameter—just the size for pickling. Fruit has all-over red coloring; flesh is white with a delicious sweet flavor.

BUXUS KOREANA, A.A. TYPE. This is probably the hardiest of all the Boxwoods. This strain is entirely different from the above. Propagated from plants sent to us by the Arnold Arboretum many years ago. Foliage a good green both summer and winter; narrower leaves than Sempervirens; slow, spreading grower. We have been selling all our stock to growers who saw it in our nursery.				
* 2 in. pot plants.....		$3.00	$25.00	$235.00
BUXUS MICROPHYLLA var. COMPACTA. New rare, extremely dwarf and hardy Boxwood. Has stood all weather conditions in the Pocono Mountains where temperature drops below zero. Very dwarf and slow growing. Ideal for edging, rockeries, Knott gardens and all uses where plants are required to remain dwarf. Original plant after twenty-eight years, is now about 12 inches high and 21 inches wide. A rare gem. Stock very limited.

BUXUS SUFFRUTICOSA (Old English Dwarf Box). As a low edging in formal gardens there is no greater favorite than this variety of Box. This is the variety that is so much seen in Washington's gardens at Mt. Vernon and in other noted gardens in Delaware, Maryland, Virginia and other Middle Atlantic States. We have about 50,000 each rooted cuttings and transplants to offer this season. Our two-year rooted cuttings are very heavy rooted stock and we do not believe you can beat this quality and price anywhere. Order a few and see what they are.

CAMELLIA JAPONICA

These Camellias are not hardy here. Can be used outside in the South, but inside here.

HIGH HAT. Beautiful, fresh pink sport of Daikagura. Having all good points of Daikagura, in addition to a most pleasing pink shading. One of the most desirable of the new Camellias.
12 to 15 in. pot grown plants.....$2.50 each

KUMASAKA. Very large, loose peony form to informal double glowing rose-pink. Profuse bloomer.
12 to 15 in. pot grown plants.....$1.50 each

PINK PERFECTION. Well known, medium size, formal double of clear pink.
12 to 15 in. pot grown plants.....$1.50 each

CAMELLIA SASANQUA

These handsome flowering evergreens have proven entirely hardy here and we believe they are as hardy as the Kurume Azaleas. They bloom from September until freezing weather. The demand for these plants is increasing about as much as for any plant we grow. Suggest you try them and treat them about as you would the Kurume Azaleas as to soil and culture. For further description ask for our Azalea, Camellia and Rhododendron booklet, no charge.

Tree Peonies

Because of their novelty and great beauty, Tree Peonies are rapidly becoming one of the most desired plants. They bloom earlier than ordinary Chinese Peonies and their flowers are of immense size. These plants are established in 5 inch pots and can be removed safely at any time. See page 29 for prices and descriptions.

HOLLY (Ilex)

For many years we have been urging nurserymen to grow more holly. Fifteen years ago there was not very much demand for holly. If you will refer to our catalogs about that time and since, you will find we said, "The nurseryman who will grow a collection of Hollies to a specimen size will have something he can sell, whether times are good or whether they are bad. There is always a demand for them, and there will be as long as any other plants will sell."

Try to buy nice holly now, see how scarce it is. We find demand increasing each season.

OPACA, ARDEN (Arden Holly). An American Holly originating north of Wilmington, Del. and selected for its good growing habit, handsome and wonderful fruiting qualities. Sells out every year.
3 in. pot plants..... $5.00 $45.00 $435.00

OPACA AUNT MARY. A very heavy fruiting strain found in Pennsylvania. Good grower and good foliage.
2½ in. pot plants..... $5.00 $45.00

OPACA BRILLIANTISSIMA. A new one from New York state noted for its brilliant coloring.
3 in. pot plants..... $7.50 $70.00

OPACA CARDINAL. Hardy, very fruitful; compact growing. Bears when young.
3 in. pot plants..... $5.00 $45.00

OPACA CHEERFUL. The leaves are a good green with whitish-green teeth. The fruit is large and a fine cherry-red. A handsome Holly.
4 in. pot plants.....$1.50 $13.50

OPACA, CROONENBURG. The Wonderful New Holly. In a mature plant the leaves are 2½ to 3¾ inches long and 2 to 2½ inches wide, having about 7 to 9 spines of a very dark green, not having the usual yellowish tint found in the most familiar American Hollies. It bears berries from cuttings almost continuously.
3 in. pot plants..... $7.00 $65.00 $625.00

OPACA DELIA BRADLEY. An American Holly of good merit. Has a very heavy fruiting habit, even when quite young. The fruit is a very bright red in great abundance, and can be depended upon to fruit yearly when once established. One of the best American Hollies.
3 in. pot plants..... $7.00 $65.00 $625.00
4 in. pot plants.....$1.25 11.50 100.00

OPACA, EAST PALATKA. A cross of Dahoon and Opaca. Its evergreen leaves are practically spineless. The deep red berries are borne in heavy clusters, ripen a month or so before Opaca and persist on the tree until spring.
3 in. pot plants..... $5.00 $45.00

OPACA FARAGE. Leaves nearly twice as long as broad and are a deep green and nicely toothed. The fruit is bright red.
4 in. pot plants.....$1.25 $11.50

OPACA FEMINA. These plants are all from good bearing and growing types and are ideal where you are not particular to know the names. We sell thousands of these every year. All are cutting grown and female plants.
3 in. pot plants..... $4.50 $40.00 $385.00

OPACA HOWARD. A named berry-bearing form of American Holly. Small glossy leaves, with an abundance of dark red berries in clusters.
3 in. pot plants..... $5.00 $45.00

OPACA HUME No. 1. A vigorous grower, spreading in habit, with large, almost spineless leaves. Bears regularly and the fruit is red and of large size.
3 in. pot plants..... $5.00 $45.00

OPACA HUME No. 2. Another cross between Dahoon and Opaca. A stronger grower than East Palatka. Its berries are not so bright, however.
3 in. pot plants..... $5.00 $45.00

OPACA LAKE CITY. This is a pyramidal growing type, very heavy fruiter of bright Christmas-red berries.
3 in. pot plants..... $5.00 $45.00

OPACA MALE. A male variety selected for good habit of growth and foliage to use in pollinating female varieties.
3 in. pot plants..... $5.00 $45.00

OPACA MAPLE SWAMP. Good compact grower. Bright red berries. Another good seller.
3 in. pot plants..... $5.00 $45.00 $435.00

HOLLY (Continued) Each 10 100 1000

OPACA SAVANNAH. A heavy bearing selection, good foliage, good grower. This may be the heaviest fruiting variety we grow.
3 in. pot plants..... $5.00 $45.00

OPACA TABER No. 3. A very handsome American Holly with bright, shiny green leaves, evenly toothed. The berries are a very bright red and usually remain on the tree for one year. One of the best of the American Hollies.
3 in. pot plants..... $5.00 $45.00

OPACA XANTHOCARPA. A yellow berried variety of the American Holly.
3 in. pot plants.....$1.00 $7.50 $65.00

PEDUNCULOSA, FEMALE. Vigorous growing Holly with perfectly smooth, dark green leaves. Its appearance is unlike usual run of Hollies and the berries which are bright red, hang like small cherries, making this handsome Holly most unusual. Supposed to be very hardy.
3 in. pot plants..... $7.50 $65.00

PEDUNCULOSA MASCULA. A male type of above. Used to pollinate the female variety.
3 in. pot plants..... $7.50 $65.00

PERADO. This resembles the English Holly very much in leaf color and growth. Berry bearing type.
2¼ in. pot plants..... $6.00 $50.00

PERNYI (Chinese Holly). Shrub to 10 feet. Leaves crowded with 1 to 3 rigid spines on each side, the upper pair the largest, but shorter at the terminal spiny, point, dark green and lustrous above, ¾ to 1 inch long. Fruit bright red. A handsome evergreen and the foliage is most unusual. We like Pernyi very much.
2¼ in. pot plants..... $4.00 $35.00

PERNYI VEITCHI. Similar to above but foliage is larger and plants stronger growers.
2¼ in. pot plants..... $4.00 $35.00

This nursery was started just 48 years ago by the present owner. We have made many mistakes but we believe our customers will agree that we have always tried to give a dollar in value for every dollar received. This will be our aim as long as The Tingle Nursery Co. stays in business. If you have any reason for complaint, tell us.

THE RARE FRANKLINIA

Here is a plant that just keeps growing in popularity. To see the bloom and fall foliage makes one want it in his own garden.

YEWS — The All-Around Evergreen

The best and most versatile of the dwarfer evergreens. Exceptionally hardy, thriving in practically any soil. Varieties vary from low spreading types to pyramidal forms. Foliage dark green with short needles. We have one of the best collections in the country.

They are not so particular as to character of soil except that it should not be too wet, but they do appreciate plenty of good plant food. They are immune to many insect pests and plant diseases so destructive to many other evergreens.

The Yew in its many species and forms can well be used in most all places where any other evergreen will do well. We honestly believe you will do well to plant and grow on some of these Yews.

	Each	10	100	1000
Baccata (English Yew). Widely planted in English Churchyards. A good ornament. Hardy as far north as New York City. Upright, dark green foliage. Very good for the South and where it is hardy.

A FASCINATING HOBBY

Growing Azaleas is a hobby which provides an ever increasing source of interest. There are so many species to be had and so many almost breath-taking new hybrids being produced, that one is amazed at the magnificent display that we may have with only a small space of ground and a few of the newer plants that are being offered. If you want a stimulating (and profitable) hobby that grows more interesting, beautiful and valuable every year, then grow Azaleas.

MORE HATFIELD YEWS

The following varieties were grown from stock purchased from the late T. D. Hatfield. He selected these as being the best of his unnamed varieties and we are still carrying them under his original numbers. We are giving brief descriptions.

	Each	10	100	1000
Media Hatfield No. 2. Real dark foliage, upright grower; very dense; needles medium length. Very good.				
* 4 to 6 in. trans.....		$2.25	$17.50	
12 to 15 in. B&B.....	$2.25	21.50		
15 to 18 in. B&B.....	2.75	26.50		
24 to 30 in. B&B.....	4.25	41.50		
Hatfield No. 6. Somewhat like No. 8 in growth but twigs are not as heavy; leaves narrow. Very graceful.				
12 to 15 in. B&B.....	$2.25	$21.50	$200.00	
Hatfield No. 7. Bright glossy green, heavy foliage; long needles. A low growing spreading type.				
* 4 to 6 in. trans.....		$2.25	$17.50	$165.00
* 8 to 10 in. trans.....		3.25	27.50

Hatfield No. 8. Slow growing; very compact. Foliage bright green. Resembling Cuspidata Nana.				
* 4 to 6 in. trans.....		$2.25	$17.50	
*10 to 12 in. trans.....		4.00	35.00	
12 to 15 in. B&B.....	$2.25	21.50	200.00	
Hatfield No. 18. Similar in growth to **Taxus cuspidata.** Foliage a shade lighter making it wonderfully attractive. Probably the most rapid grower of all the low types of Taxus. However, it can be kept compact with a little shearing. If you want a good, quick grower, yet one having the good qualities of Cuspidata, we recommend this one.				
* 4 to 6 in. trans.....		$2.25	$17.50	$165.00

You Should Grow

The Rare Franklinia

A Very Unusual Flowering Tree

Each twig develops at its tip a cluster of buds of graduated size, like overgrown greenish pearls. Early in August the largest of these attain the size of marbles. Then the guard petal folds back, still retaining its firm spherical form. From this shelter emerge four other petals, satiny, snowy white, elaborately frilled and pleated. The snowy, frilly chalice, three inches in diameter, holds a sumptuous mass of orange-gold stamens and breathes forth a delicate, balmy fragrance.

Each flower lasts two or three days and then drops cleanly. **There is a constant succession of bloom till hard frost.** We frequently get the unusual effect of a tree clad in crimson, autumn foliage and abundantly starred with white flowers.

The Franklinia begins blooming when not more than 3 or 4 feet high. Young trees under favorable conditions increase in height a foot or more each season. Specimens 30 feet high are known. It develops naturally with several trunks, but may easily be trained to a single trunk by removing the sprouts which start from the base.

Franklinia prefers full sun, has proved entirely hardy about New York and hardy in favorable locations about Boston, Mass. and in Ohio.

MISCELLANEOUS ITEMS

We did not intend to offer the following stock this season, as we wanted to increase our supply, but find we have some space with no copy for. This gives you the opportunity to get some items while they are scarce. We are limiting the supply to not more than ten of a variety to any one person. It is quite probable many of the items will be sold out early, so if you want any, better not delay ordering too long.

Tree Peonies

Because of their novelty and great beauty, Tree Peonies are rapidly becoming one of the most desired plants. They bloom earlier than ordinary Chinese Peonies and their flowers are of immense size. These plants are established in 5 inch pots and can be removed safely at any time.

There has been so much demand for these Tree Peonies we have added additional varieties to our list.

Azaleas

Azaleas will grow in full sun or in shade. In the sun you will have brighter colors and growth will be shorter. We prefer a little shade if convenient. The small pot-grown plants should be planted about ten or twelve inches apart in a prepared bed consisting of about equal parts of good acid soil and peat moss of rotten leaf-mold, with about one-half shade.

Azaleas like acid soil with plenty of peat moss or leaf-mold in it. As a fertilizer rotten cow manure, cotton-seed meal and tankage are good. Use this in early spring and keep well mulched with peat moss or leaf-mold and keep the plants well watered during dry weather.

Azaleas have been one of our specialties for many years. This season we are pleased to offer the largest stock we have ever grown, and at reduced prices, too. If you have not been getting your Azaleas—Lining-Out or Specimen—from us, we wish you would try ours this season. We aim to please you with Azaleas as well as with our other stock.

KURUME AZALEAS

The Kurume Azaleas are one of the most showy of all flowers for the garden. They are also well adapted to forcing—thousands of them being sold for Easter, Mother's Day and Decoration Day. They are comparatively easy to grow and make such a wonderful display that the demand is constantly increasing. Many of the varieties are hardy out-of-doors as far north as Long Island. They are extremely floriferous, and in season, the blossoms completely cover the plants. The colors are almost every hue and shade except yellow, as you will find below.

CHUGAI HYBRID AZALEAS

A new group from the Chugai Nursery Co. near Osaka, Japan. These are late flowering. Flowers are usually variegated, white or pink ground with red, lilac or purple stripes, white base with colored margin, or purple with white variegation and edge. We do not recommend these for northern sections. They are hardy here. We have many more varieties of these in small lots. Slow growing.

AZALEAS—Kinds and Culture by H. H. Hume

This new book, written by an outstanding authority presents a wealth of up-to-date information on Azaleas. All details in the successful growing of Azaleas are carefully explained. Describes typical soils; how to grow them to the most favorable condition; best method of planting and growing on; how to feed, mulch and water them; control pests and insects and various methods of propagating them. Beautiful full color and black and white plates. Worth many times its cost of $4.50 postpaid.

GABLE'S HARDIER AZALEAS

Mr. Joseph B. Gable of Pennsylvania has spent almost a lifetime working with Azaleas and Rhododendrons. Many years ago he started breeding azaleas with the hopes of producing a hardier type of evergreen azalea in a good color range than then available. He has had wonderful success and is now recognized as the leader in this field.

You who have been getting our catalogs for the past fifteen years have seen how successful his efforts have been and there are many more of his later productions following as soon as sufficient stock can be produced.

We are very proud that Mr. Gable has furnished us with these new creations as soon as he had the stock to offer and we know from the reports we have received from our customers that his hopes have been more than realized.

As to hardiness: these varieties will average hardier than Hinodegiri and Amoena and much hardier than the other Kurumes. All have lived and flowered in the open field where they have withstood temperatures of twenty below zero and more in the past few winters with only negligible injury to a few. Most of them were uninjured.

KAEMPFERI HYBRID AZALEAS

In these new Kaempferi Hybrids—the result of crossing Kaempferi and Malvatica—there has been obtained the hardiest type of evergreen Azalea, with a good range of form and color in the flowers so far achieved. Several years' tests have demonstrated that these new Hybrids are just as hardy as Kaempferi, until now the hardiest of the evergreen sorts. In connection with these Hybrids we suggest you try out the new Gable varieties we are offering.

ARNOLDIANA AZALEAS

In 1914, the late Jackson Dawson, then superintendent of the Arnold Arboretum, at Boston, Mass., created a splendid new type of hardy Azalea by crossing Azalea Kaempferi and Azalea Amoena. Of the seedlings thus produced a considerable number of them were grown at Boston from their infancy until flowering age, when the following ones of unusual beauty and vigor of growth were selected.

These Arnoldiana Azaleas have done exceptionally well in Indianapolis, Indiana, and we can recommend them for trial in similiar soils and conditions.

BRIARCLIFF. Deep rich reddish pink.			
* 2 yr. field beds XX trans...	$3.50	$27.50	
CARDINALIS. Cardinal-red flower.

Our stock of this Azalea is still limited. We suggest you get started with it as we think the demand will increase faster than the supply as it becomes better known.

VUYKIANA AZALEAS

A new race of very large flowered Japanese Azaleas, produced by crossing hardy Azalea Malvatica hybrids with Azalea Mollis. Sturdy growers, prolific bloomers. From the information we have they are much hardier than the Kurume Azaleas. Flowers range from 2 to 2½ inches. All bloom late midseason. Plants grow tall.

ROOT GRAFTS

We are again making Root Grafts of stock that is very much in demand at this time. Advise ordering before Christmas if possible as we may not be able to furnish if ordered late. We will make up and reserve for shipment at the time you want them, or will send as soon as we get them made.

FLOWERING CRAB

Price $15.00 per 100. For list of varieties, see page 17.

RED OR PINK FLOWERING DOGWOOD

Price $20.00 per 100

LILACS

Prices of standard varieties $15.00 per 100. See page 16.

AIR LAYERING PLANTS

You have often wanted to propagate some plants of a scarce or high priced variety but did not have the proper facilities to do it with. With a new outfit we are offering, you can do it yourself, as easily as making an old-fashioned graft. You take a branch of the shrub or tree you wish to graft (leaving it on the parent plant), girdle the branch or twig, put damp peat moss or damp sphagnum moss around the girdled part and wrap it tightly with this new waterproof plastic (in sheets) and tie it, top and bottom, with rubber bands. Generally within six to eight weeks the twig is rooted ready to pot. It requires no watering or other attention until ready to pot. Complete outfit (enough plastic sheets and rubber bands to make 100 grafts), with complete instructions how to do the grafting, for $5.00 postpaid.

EMBOSSED ZINC LABELS

We will make from your list of varieties, Embossed Zinc Labels, ½ inch wide at 7c each in any quantity desired. These Labels will permanently identify your plants.

HORTICULTURAL PEAT MOSS

Very fine, clear, highly absorbent. Burlapped bales. $4.90 each, while present stock is available. This is the kind we use for propagating.

BLUEBERRIES

There has developed an enormous demand for these plants, both for fruit and ornamental purposes. If you have not been getting some of this trade you are missing some good profits. They are easy to grow and handle. Put in a small stock and let us supply you; will send to you or direct to your customers under your tag. See page 60.

BALLING OR PINNING NAILS

For pinning the burlap around the balls of earth. Smooth bright, flat head with a needle point.

Per Keg (100 lbs.) F.O.B. Pittsville—$15.60.

GLENN DALE AZALEAS

The Division of Plant Exploration and Introduction at the Glenn Dale Plant Station began introducing, in 1941, a group of selected seedlings from their own crosses. We have been growing and propagating these plants since then and we are now offering them to the trade.

The purpose of this breeding work was to obtain a class of winter-hardy Azaleas that would have as large and varied flowers as those of the "Indian Azaleas" which are not hardy in this section. Mr. B. Y. Morrison, who has been leading in this work, has done a wonderful job, not only in producing large size and varied colors but also has bred the hardiness into the plants. These plants are most interesting. The flowers run to over 5-inches across and include both self-colored and variegated. The plants are mostly excellent growers and do well here, and from all appearances will grow well in much colder sections.

When I was told they had some blooms that would run over 5-inches across I could hardly believe it but, it is so. I have seen them, and I hope to offer some of the plants in another season or two. We only have a small quantity of some varieties, but hope to get all varieties distributed in as large an area as possible so we may have information as to how they grow generally throughout the country. If you get some of these we will appreciate knowing how they grow with you. We suggest you give these a trial.

The following descriptions were furnished us by Mr. Morrison and are based upon the original material as grown at Glenn Dale, Maryland, and give as figures for heights those of the original plants, all between 15 and 20 years old, under normal development except for the removal of propagating wood during a two season period.

The number following variety name is the Glenn Dale Station number.

Sometimes when Azalea flowers are described as striped or flaked on white they will appear as a solid color. When this occurs the branch should be cut out. This seems inherent with the variety—not any fault of the nurseryman.

Blooming dates are for vicinity of Washington, D. C. in a normal season.

Berberis Crimson Pigmy

Dwarf Red Leaf Japanese Barberry

Three years ago we imported some of these dwarf barberries from Holland. It is one of those real good finds one comes across very seldom. Our four year plants are now about 15 inches wide and ten inches tall. A truly dwarf variety. The old leaves are a rich, lustrous bronze-red, the new growth is a much lighter red. Almost identical in color to a Japanese red maple at its most colorful stage.

2-inch pot plants, 1 yr., $4.00 for 10, $35.00 per 100.
2¼-inch pot plants, 2 yr., $6.00 for 10, $50.00 per 100.

Forsythia Lynwood Gold

A New Forsythia from Ireland

This new Forsythia is of a deep yellow color (see colored illustration on third cover page). A good variety to grow with the light yellow "Spring Glory" variety. The golden-yellow flowers simply hide the upright growing branches. For you who want branches for forcing this is one of the best.

18 to 24 in. plants, 10 for $6.00, 100 for $50.00.
2 to 3 ft. plants, 10 for $7.50, 100 for $65.00.

*EDCO IRON

***(The Chelated Iron in This Product is "Sequestrene" Brand)**

For experimental use in the control of chlorosis (lack of chlorophyl) in azaleas, gardenias, roses, citrus crops, etc.

Results to date have shown Edco Iron to be very effective in correcting chlorosis in the above crops. Chlorosis may be caused by the excess or deficiency of several major or minor nutrient elements in the plant besides iron, and it may be caused by an excess of water or its lack, but Edco Iron commonly seems to help correct the effect if not the cause of these several conditions.

Preliminary test work conducted with this material shows some wonderful results.

Full directions for using with each lot.

Prices: 1 lb. $2.30; 10 or more lbs. at $2.00 per lb. delivered.

AUNT MARY'S SWEET CORN

THE SWEET CORN SUPREME

This is the most wonderful Sweet Corn we have ever grown. One grower describes it as "the best Sweet Corn in the world."

Has the most delicious flavor and keeps a long time before becoming too hard to use. In fact, usually requires artificial heat to cure it for seed purposes.

Aunt Mary's Corn, by its excellent quality, sweetness, and flavor makes a stronger appeal to the Corn-loving public than most any other variety and that appeal continues long after you are tired of other Sweet Corns.

Liberal size packets, 35c each; 3 for $1.00, postpaid.

If after growing this wonderful Sweet Corn you are not entirely satisfied, we will refund every cent you paid us for it.

NURSERY SPADES

No. A3M. This is the standard light weight (5½ lbs.) nursery spade, 7½ in. tapered to 6 in. wide at bottom, and 12 inches long; handle has two-thirds length (15 in.), straps, turned over steps. $6.50 each.

No. A13. A heavier (7 lb.) spade than above with a 13 in. tapered blade and full length straps. This spade is for heavy digging. $8.00 each.

THE MEDIA HYBRID DAY LILIES

In these Media hybrids we have all the latest colors in red, maroon, mahogany, pink, rose and a few yellows produced by one of the leading Hemerocalis breeders. They are mixed but you are bound to get a variety in each hundred lot. We have several thousand we are offering at $12.50 per 100 or $100.00 per 1000. A very unusual bargain offer.

PRINTING

After selling our printing department six years ago, one of the young men (Charles L. Parker), who had been working for us decided to start a printing business of his own. He will be very glad to quote on any work you may want done. With much pleasure I recommend him and am sure you will find him reliable in every way, and we both will appreciate any order you may place with him. Send all correspondence about printing direct to

Grafting Is Easy

You have often wanted to propagate some plants of a scarce or high priced variety but did not have the proper facilities to do it with. With a new outfit we are offering, you can do it yourself, as easily as making an old-fashioned graft. You take a branch of the shrub or tree you wish to graft, (leaving it on the parent plant) girdle the branch or twig, put damp peat moss or damp sphagnum moss around the girdled part and wrap it tightly with the new waterproof plastic (in sheets) and tie it, top and bottom, with rubber bands. Generally within six to eight weeks the twig is rooted ready to pot. It requires no watering or other attention until ready to pot. Complete outfit (enough plastic sheets and rubberbands to make 100 grafts) with complete instructions how to do the grafting, for $5.00 postpaid.

BURLAP BAGS

We have some very nice used Peanut bags in good condition approximately 40 inches x 72 inches when opened. We use these bags in B&B plants also in wrapping bundles for shipping. Price in lots of 100 or more 15 cents each as long as our present supply lasts.

GROW CHESTNUTS

WITH THE BLIGHT RESISTANT ORIENTAL VARIETIES (Japanese Chestnut)

Most people know that a terrible scourge (blight) has befallen our native Chestnut tree, but many do not know that the Oriental species are resistant to this blight. We had nineteen burrs averaging three nuts each on a tree 40 inches tall. These trees are not as tall growing as was our American species, but grows more spreading, making a round top tree.

There is very much interest in the foreign species and we are very fortunate in having a nice supply to offer this season.

DRAW-CUT PRUNING SHEARS

No. 808 8 inch

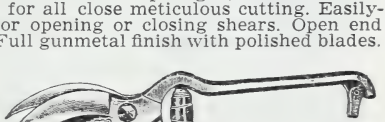
$4.50 each $43.20 dozen

mproved professional pattern. Hot drop-forged, hardened and empered. Specially suited for all close meticulous cutting. Easily-perated one hand latch for opening or closing shears. Open end andles prevent pinching. Full gunmetal finish with polished blades.

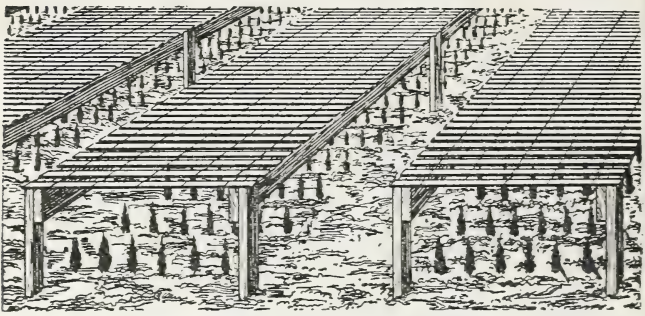
LIGHTWEIGHT PRUNING SHEARS

No. 607R 7 inch

$2.50 each $24.00 dozen



Hot drop-forged of fine cutlery steel. The thin blades shear wood easily and cleanly. Out-standing because of its light, graceful appearance and easy cutting features. Chrome plate handles.



This shows one way to use this shading. We stretch wires over beds about 16 inches from ground.

Woven Lath Shading

Our woven lath shading is an efficient and economical material for the protection of newly set rooted cuttings, seed beds and small seedling transplants. It protects them from the hot rays of the sun and strong and destructive winds.

The construction of the beds is simple. You can use narrow boards (4 inch) nailed on small stakes (2 x 2 inches or 1 x 4 inches), or you can do as we do. We stretch two wires three feet apart over a four foot bed (this will leave the lath shading extending over each wire six inches. This makes it easy to roll and unroll the shading without rolling off the wires. The wires are placed about 16 inches from the ground, thus giving the small plants plenty of room to grow before reaching the shading.

This Woven Lath Shading is easily handled, and when not in use you just roll it up and store away until ready to use it again.

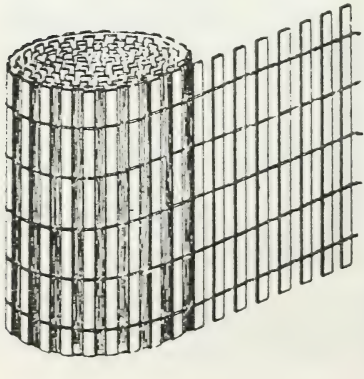
The laths or pickets are approximately ⅜ inch thick x 1½ inch wide and 4 ft. long and are woven with five double strand 12½ gauge galvanized wire, spaced about the right width apart to give proper shading.

This Woven Lath Shading is painted with a solution of red mineral oxide, greatly extending the life and use of the shading.

It is made in rolls of 50 and 100 feet. Can be easily handled by one or two persons.

It is also useful for making fences, to protect new plantings of grass and shrubbery around parks and fields and many other uses you may find for it. Can be easily rolled up again at any time and stored in a small space for future use.

A little investment in proper protection of tender and newly planted plants may save you many tedious hours of labor, considerable expense and may even save you an entire season's growth of your valuable plants.



Why take chances of sun ruining your plants? You can get over 3,000 plants under 100 feet roll when planted 4 in. apart each way.

Another big advantage of using this Woven Lath Shading is that you can water your plants even while the sun is shining hot on them. This means a lot in continued dry weather. Price: Up to 500 ft. at 23 cents per running foot, over 500 feet at 22 cents per running foot. Large quantities specially priced.

12 to 18 in. trans.		5.50	45.00	
18 to 24 in. trans.		6.50	55.00	
BERKLEY. A newly introduced variety. Because of the large size of its fruit, its especially light blue color, and its unusually firm berries this should be a leader as soon as it is well known. Vigorous bush, little earlier than Jersey and Dixie.				
6 to 12 in. trans.		$5.50	$50.00	
12 to 18 in. trans.		6.50	60.00	
18 to 24 in. trans.		7.50	70.00	
BURLINGTON. Medium size berries on vigorous upright bush. Berries a good blue, firm, aromatic and of good dessert quality. Noted for its lateness, color, and excellent shipping qualities.				
12 to 18 in. trans.		$4.50	$40.00	
18 to 24 in. trans.		6.00	50.00	
CONCORD. The bush is of the upright habit and at maturity exceeds 6 feet in height. The young growth is bright red in winter. The berries are large, frequently reaching three-quarters of an inch in diameter. They usually ripen a few days earlier than Rubel and are very fine in flavor.				
12 to 18 in. trans.		$4.50	$40.00	
18 to 24 in. trans.		5.50	50.00	
DIXI. Produces the largest fruit of any variety, also noted for firmness and productiveness. Fine blue color and high aroma. Ripens a little before Jersey.				
6 to 12 in. trans.		$4.50	$40.00	
12 to 18 in. trans.		5.50	50.00	
HERBERT. Another new variety. Ripens about same time as Jersey and Dixie. Fruit much larger than Jersey, excellent flavor. Consistently very productive.				
6 to 12 in. trans.		$5.50	$50.00	
12 to 18 in. trans.		6.50	60.00	
18 to 24 in. trans.		7.50	70.00	
JERSEY. The bush is of vigorous habit and grows very large. The winter color of the young growth is a light red over golden brown. The berries are among the very largest, light blue, and ripen about the same time as Rubel.				
6 to 12 in. trans.		$4.00	$32.50	
12 to 18 in. trans.		4.50	40.00	
JUNE. A little earlier than Cabot. Berry is large, of medium blue color, sweet and delicious when fully ripe, with a slight subacidity. Newer and probably better than Cabot.				
6 to 12 in. trans.		$4.00	$32.50	
PEMBERTON. One of the most vigorous of all. Large berries, firm with slight aroma and of good dessert quality. Very productive. Midseason. Especially liked for its vigorous bush and large size berries.				
6 to 12 in. trans.		$4.00	$35.00	
12 to 18 in. trans.		5.00	45.00	
18 to 24 in. trans.		6.00	55.00	
2 to 3 ft. trans.		7.00	65.00	
RANCOCAS. The bush of slender, vigorous, upright habit rarely surpasses 5 feet in height. The winter twigs are dark red. The berries are somewhat larger than those of Rubel and begin to ripen several days earlier.				
6 to 12 in. trans.		$4.00	$32.50	
12 to 18 in. trans.		4.50	40.00	
18 to 24 in. trans.		6.00	50.00	
RUBEL. A vigorous, productive variety. Well-developed bushes stand 6 feet high and the winter color of the young wood is a rich red. The large berries of fine color are usually ready to pick the first week in July.				
6 to 12 in. trans.		$4.00	$32.50	
STANLEY. Tall, vigorous bush with thick shiny leaves. Good producer in early midseason of large berries. Considered best flavored of all blueberries.				
6 to 12 in. trans.		$4.00	$35.00	
12 to 18 in. trans.		5.00	45.00	
18 to 24 in. trans.		6.00	55.00	
WEYMOUTH. The earliest of all blueberries. Dark blue, medium size berries that lack good dessert quality but popular as a commercial variety because of its earliness and quick ripening of entire crop for early market prices.				
6 to 12 in. trans.		$4.50	$35.00	
12 to 18 in. trans.		5.00	45.00
